

WASHINGTON COLD CASE

ADVISORY GROUP

WHAT: The WSP Crime Lab Division has teamed up with local, state, and federal partners to create an advisory group to assist agencies in leveraging DNA technology to solve cold cases throughout Washington State.

WHO: The Washington Cold Case Advisory Group is made up of DNA scientists from all WSP labs along with carefully selected cold case investigators, representatives of the Washington State Office of the Attorney General, Medical Examiner staff, NamUs, the FBI, Washington Tribal Liaisons, and the WSP Missing and Unidentified Persons Unit.

WHERE: Training events will be held virtually. Case consultation may be provided by request in person or remotely .

WHEN: Training and informational events will begin in 2024, and will be announced via our email list.

HOW: Join our mailing list to receive updates. Provide your name, agency, title, and email address when requesting to join.
