

CSRT Members

The WSP CSRT is comprised of both full and part-time responders from various forensic disciplines in the Crime Lab Division.

All team members receive continuous training in the most up-to-date forensic techniques and procedures.

WSP Crime Scene Response Team

How to call out the CSRT:

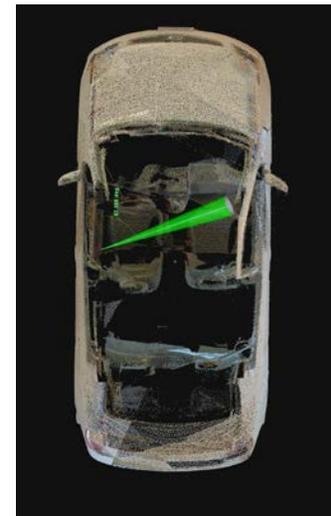

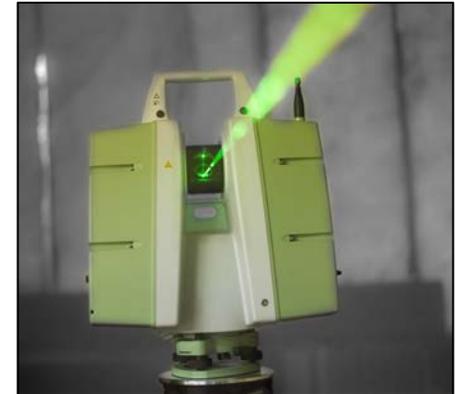

- Secure the scene.
- Call (253) 255-3064.
- Be prepared to answer the following questions:
 - Type of offense and incident summary
 - Victim/Suspect information
 - Scene processing requested (e.g., fingerprint development, bloodstain collection, bullet trajectories, etc.)
 - Search warrant status
 - Priority of assistance needed (e.g., immediate response or can be scheduled)
 - Contact person and phone number
 - Meeting location

CSRT 24-Hour Line

(253) 255-3064

HDS (3-D Scanning)

The CSRT also offers 3-D scanning of crime scenes and can provide detailed diagrams (both 2-D and 3-D) and animations of scanned scenes.

CSRT Capabilities

The WSP CSRT can perform bloodstain pattern analysis, crime scene documentation, evidence preservation and collection, latent blood enhancement techniques, alternate light source for bodily fluid detection, crime scene photography, latent print processing, trajectory analysis, and scene reconstruction.

CSRT 24-Hour Line

(253) 255-3064

As a general guideline, the CSRT will respond to the following situations:

- Death Investigations (except for traffic fatalities)
- Sexual assault cases
- Kidnappings
- Assaults/Shootings
- Other felony crimes as warranted by circumstances

Requests for crime scene investigation or assistance should be made to the Crime Scene Manager by calling the 24-hour line.

The WSP CSRT can also provide training tailored to individual agency needs. Requests for training can be made by calling the 24-hour line.
