

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

2024-TLD-01: Case List - Evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 through the morning of January 10, 2024

This table is provided for informational purposes only.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.

NOTE: List includes cases with evidence items stored in Vault Refrigerator 2 from the afternoon of January 9, 2024 to the morning of January 10, 2024. During this time frame, the temperature of Vault Refrigerator 2 was outside of the Laboratory's acceptable temperature range (average of 2–8 °C). Storage conditions of the refrigerator at this time were between approximately 10 - 31°C.

A Test Report Status of **Distributed** indicates the final Test Report was issued on or before 1/10/2024; a Test Report Status of **In-Progress** indicates a final Test Report had not been issued on or before 1/10/2024. For cases identified as **In-Progress**, Laboratory analyses may have been performed on or after 1/10/2024. For cases identified as **Cancelled**, the prosecuting attorney's office and/or submitting agency had cancelled the request for testing before 1/10/2024.

All evidence transactions are documented in the chain of custody record for each case. For additional information on a specific case, contact the Seattle Laboratory at 206-262-6100 or toxlab@wsp.wa.gov.
