State Fire Mobilization Authorized for the Montecito Fire

State fire assistance has been mobilized under the Washington State Fire Services Resource Mobilization Plan in support of local firefighters working to contain the Montecito Fire, located approximately near Prosser in Benton County. The Montecito Fire is burning in grass and brush. Washington State Patrol Chief John Batiste authorized the mobilization of state firefighting resources on June 28, 2018, at 12:00 a.m. at the request of Acting Fire Chief Todd Dormaier, West Benton Fire and Rescue.

The Montecito Fire started on June 27, 2018, at approximately 7:30 p.m. This fire is estimated at 2,500 acres, and is threatening homes, crops, and infrastructure in the area. Level 2 evacuation orders are in effect at this time. The cause of the fire is under investigation.

Mobilization specialists from the Fire Protection Bureau have ordered 3 strike teams of fire engines. The fire will be managed by the Southeast Washington Interagency Type 3 Incident Management Team.

The State Emergency Operations Center (EOC) at Camp Murray is activated to Level 2 to coordinate state assistance for the Montecito Fire. State Fire Marshal's Office personnel are en route to the scene to coordinate dispatch of resources.

Under the State Fire Services Resource Mobilization Plan, the Fire Protection Bureau coordinates the initial dispatch and continued administrative oversight of resources and personnel for the duration of the incident. The Mobilization Plan is implemented to provide a process to quickly notify, assemble and deploy fire service personnel, equipment and other resources from around the state when fires, disasters or other events exceed the capacity of local jurisdictions. More information about the Washington State Fire Services Resource Mobilization Plan is available at: <http://www.wsp.wa.gov/draft-all-risk-mobilization/>.

The State Fire Marshal's Office is a Bureau of the Washington State Patrol, providing fire and life safety services to the citizens of Washington State including inspections of state licensed facilities, plan review of school construction projects, licensing of fire sprinkler contractors and pyrotechnic operators, training Washington States firefighters, and collecting emergency response data.
