Seismic Protection for Fire Sprinkler Systems 1 Day/8 Hours

Course Synopsis:

Seismic protection for fire sprinkler systems is a fact of life for many locations. This course is designed for those who have an understanding of seismic terms with a focus on the proper application of the requirements for seismic protection including flexibility, clearance, and bracing. Further, participants of the course will learn to apply the concepts of lateral and horizontal loads, determine the zone of influence, and the calculation and layout of seismic bracing.

Audience: Certificate of Competency Holders, AHJ

Required NFPA Standard: NFPA 13 (copies will not be provided)

Instructor: Fire Smarts, LLC

Class Date/Time

May 15, 2019
8:00 a.m. – 5:00 p.m.

Location

Spokane Valley Fire Department
2120 North Wilbur Road Spokane
Valley, WA 99206

CEU credits: All classes are eligible for CEU credits. To receive credits and/or a Certificate of Attendance, you must attend the entire training.

Registrations: Training spots are given on a first come, first serve basis. Attendance is limited to 30 students per class. You must register with our office prior to attending; no walk-ins allowed. Email registration form to firesprinkler@wsp.wa.gov or fax to (360) 596-3934; forms must be submitted at least 15 calendar days prior to the course. A confirmation email will be sent within 5 business days confirming attendance.

Cancellations: If you are unable to attend the training after completing registration, please notify the SFMO as soon as possible.

For more information or any questions, please email firesprinkler@wsp.wa.gov or call (360) 596-3946.
