Introduction to Fire Sprinkler Systems 1 Day / 4 Hours

Course Synopsis:

This course is a high-level overview on fire sprinkler systems. The history and objective of fire sprinkler systems is reviewed. The three required components for a sprinkler to function are examined: automatic sprinkler; water supply, and the connection (piping) between the two. In addition, this course also covers the four major types of sprinkler systems and the associated components. Basic installation requirements are reviewed along with system acceptance.

Audience: Certificate of Competency Holders, AHJ

Instructor: Fire Smarts, LLC

Recommended NFPA Standard: 2013 NFPA 13 (copies will not be provided)

Class Date/Time	Location
-----------------	----------
