NFPA Standard 1002, 2017 Edition, Chapter 9

Test Construction Guide

During the final practical examination it is expected that appropriate personal protective equipment (PPE) shall be worn for all skill stations, (unless otherwise indicated) within the skill evaluation sheet. The practical exam shall consist of 8 skill sheets selected from below of which 4 are mandatory and 4 are random selections. The practical exam contains components of Chapters 4 and 9 of NFPA 1002. Prerequisites are F/FII, Haz-Mat Ops, and Driver Operator Chapter 4.

Note: **Apparatus Equipment:** If the Test Apparatus being used does not have any components listed on the skill sheet (i.e. equipment, on board generator) draw a line thru the skill step and write the word **“equipment”**. This rule will be in effect as not all ARFF Apparatus are configured the same. This will not count as a failure for the candidate.
