

DRIVER/OPERATOR - MOBILE WATER SUPPLY

NFPA Standard 1002, 2017 Edition, Chapter 10

Test Construction Guide

At a minimum, the practical examination will include skills selected from each category with a total of 8 Skill Sheets selected. The Test Control Officer will randomly select the prescribed number of Skill Sheets per category using the matrix below. The exam should be set up using at least three stations, with a different certified Evaluator at each station. It is expected that appropriate PPE shall be worn for all stations unless otherwise indicated within the Skill Sheet.

Note: **Apparatus Equipment:** If the Test Apparatus being used does not have any components listed on the skill sheet (i.e. equipment, on board generator) draw a line thru the skill step and write the word **"equipment"**. This rule will be in effect as not all MWS Apparatus are configured the same. This will not count as a failure for the candidate.

Driver/Operator Minimum Job Performance Requirements
