---

I missed a fix for tribal plates. See below:

**Fixed:**

- Omnixx Master Query - Not able to run Spokane or Yakama Tribal license plates (treated like DOL, not sending to Nlets), work around is using RV or L transactions

Thanks!

**Subject:** W3/ACCESS Updates - April 14, 2022

Hello ACCESS Users,

Here is a new W3 defect update:

**Fixed:**

- QNR not returning "expunged" notification from FBI III
- Omnixx QNP only has one purpose code field available, when it used to have five. Omnixx has been updated. [See attached technical specifications for regionals.](#)
- Locate Issue #1 - Need to forward locate transaction to NCIC when no record to locate in WACIC
- Locate Issue #3 – not always working for NCIC only records or for out of state locates

### Still working on a fix

- Omnixx Master Query - Not able to run Spokane or Yakama Tribal license plates (treated like DOL, not sending to Nlets), work around is using RV or L transactions
- QH/QWH – can't run name/DOB with SID at the same time in Omnixx
- Locate Issue #2 - Customers no longer getting unsolicited message to clear located record (if another agency locates your record, you aren't getting the location notification)
- WACIC responses coming back in 'one screen' instead of a single response per screen
- Image file not returning images
- QX Hot sheet - Not allowing the ability to narrow search by county only (using East or West, appears to narrow it down a bit)

### Reminders:

- **CJIS Validations** – various files are not working and causes records to error out and stick in 'pending ACK'. **Please continue to hold off on submitting validations until this is fixed and I send out a notification message. UPDATE: We anticipate the backend fix to be performed in the next few months and expect CJIS Validations to be working again shortly thereafter.**
- **Less is more!** The search algorithm for QNP and QW is still being tweaked. You will get better search results on your queries if you use a middle initial, instead of a full middle name.

Thank you,

*Violeta Navarro*

## UPDATES TO THE NICS QNP MULTIPLE PURPOSE CODES

Effective April 14th, 2022, the following change has been made in Omnixx:

1. Optional entries (up to six) for purpose codes have been added to the QNP form. The XML samples for a QNP with one to six purpose codes is below.
  - a. One purpose code is REQUIRED for the QNP to be completed.
  - b. Users can also input multiple purpose code combinations. The following combinations are allowed by NICS.
