Detectives Seeking Information On A Felony Hit And Run On I-5

King County: On December 20, 2024, just after 9:00pm, Washington State Patrol (WSP) communications received 9-1-1 calls reporting a collision SB I-5 near I-90.

Once troopers arrived, they found that a gold van similar to the photo below had struck the attenuator at the beginning of the ramp to EB I-90. The driver and passenger were both injured and transported to Harborview Medical Center. The driver was placed into custody for Vehicular Assault due to suspected impairment and the extent of injuries to the passenger.

Through further investigation and reports it appears that the gold van came into contact with an unknown white van prior to the collision with the attenuator. This white van would have damage to the passenger side as the gold van has damage on the driver's side consistent with contacting another vehicle.

Not Actual Vehicle

Detectives are asking for anyone that has information or witnessed the initial collision involving the white van to email Detective Early at Todd.Early@wsp.wa.gov.
