Vehicle Fires

Olympia- Vehicle fires can be a terrifying and unexpected situation. According to the National Fire Protection Association (NFPA), vehicle fires in the United States accounted for approximately 16 percent of the total reported fire incidents from 2018 to 2022. In 2024, Washington State fire agencies reported 3 fire fatalities occurring in vehicle fires.

The State Fire Marshal's Office provides the following safety tips for preventing vehicle fires:

- Drive safely and obey the rules of the road.
- Follow the manufacturer's instructions for routine vehicle maintenance.

In the event a vehicle fire occurs:

- Quickly and safely pull the vehicle to the side of the road.
- Turn off the engine.
- Have all passengers safely exit the vehicle.
- Find a safe location to regroup at least 100 feet away from the vehicle.
- Call 911.
- Do not return to the vehicle.

For more information, contact the State Fire Marshal's Office at (360) 596-3904.

###

The State Fire Marshal's Office is a Bureau of the Washington State Patrol, providing fire and life safety services to the citizens of Washington State. These services include public education, licensing and certification of the fire sprinkler, fireworks, and cigarette industries, data collection and analysis, fire and life safety inspections for state facilities, plan review of school construction projects, all-risk mobilization of statewide fire service resources, hazardous materials training, and the training and certification of firefighters.
