Critical Incident – Initial Press Release

Yakima, Wash. – The Yakima Valley Special Investigations Unit (YVSIU) is investigating an Officer-Involved shooting that occurred Saturday evening in Yakima, Wash.

On Saturday, August 9, 2025, at approximately 7:39 p.m., Yakima Police officers made contact with a wanted suspect near the intersection of East Walnut Avenue and 3rd Street. During this encounter, a Critical Incident Officer-Involved Shooting occurred.

The male suspect was fatally wounded during the incident.

A Yakima Police officer was also shot during the altercation. The officer sustained non-life-threatening injuries, was treated at the hospital, and has since been released.

The Yakima Valley Special Investigations Unit (YVSIU) was activated, and the Washington State Patrol (WSP) is leading the investigation.

Per WAC 139-12, the IIT is unable to release any criminal history related to the individual, which includes the circumstances surrounding the initial contact, which prompted the law enforcement response. This information can only be released if specifically requested by the media, and is able to be released consistent with the Public Records Act Chapter 42.56 RCW.

Per policy and practice, WSP will release weekly updates during the ongoing investigation of this incident through the WSP Government and Media Relations Office in Olympia, Wash.

The investigation is active and in its early stages, so no additional details are available at this time.

Investigation and Process:

This update is required in compliance with WAC 139-12, which mandates weekly updates be sent out by the lead investigative agency in investigations where a Washington State Peace Officer uses deadly force in the capacity of his or her law enforcement duties. These updates are required even if no new information is available at the time of the update.

Office of the Chief • Chief John R. Batiste

With the passage of Washington State Initiative 940 in 2018, and Substitute House Bill 1064 in 2019, incidents where the use of deadly force by a peace officer results in death, substantial bodily harm, or great bodily harm require an independent investigation. This investigation must be conducted in the same manner as a criminal investigation and state law now requires an “independent investigation” completely independent of the involved agency.

Weekly updates will be provided as the investigation continues. The policies and operating procedures of the IIT are available to the public at: <https://www.wsp.wa.gov/independent-investigation-team/>.
