

# WASHINGTON STATE LEGAL CONSUMER FIREWORKS FOR SALE IN TENTS AND STANDS PER RCW 70.77.136

## Cylindrical Fountain

Upon ignition, a shower of colored sparks, and sometimes a whistling effect, is produced.

## Helicopters, Aerial Spinners

A propeller or blade is attached, which, upon ignition, lifts the rapidly spinning device into the air. A visible or audible effect is produced at the height of flight.

## Cone Fountain

Upon ignition, a shower of colored sparks, and sometimes a whistling effect, is produced.

## Smoke Devices

Tube or sphere containing pyrotechnic composition that, upon ignition, produces a white or colored smoke as a primary effect.

## Roman Candles

Heavy paper or cardboard tube containing pyrotechnic composition. Upon ignition, up to ten "stars" are individually expelled at several-second intervals.

## Parachutes

Upon ignition, one or more parachutes are propelled into the air with stars, smoke, and other effects being discharged as the parachute floats downward.

## Wheels

Pyrotechnic device attached to a post or tree by means of a nail or string. A wheel may contain up to six "driver" units; upon ignition, the wheel revolves, producing a shower of color and sparks and, sometimes, a whistling effect.

## Mine/Shells/Cakes

Mine – An aerial device that shoots stars into the sky in an upward spray pattern.  
Shell – A shell is an aerial item that is fired into the sky.  
Cake – Dense-packed collection of mine/shell tubes that are fused together.

## Ground Spinners

A small device similar to a wheel in design and effect. When placed on the ground and ignited, a shower of sparks and color is produced by the rapidly spinning device.

## Reloadable Mortars

A shell consisting of a container, a lift charge, a time fuse, a burst charge, and stars/effects. The lift charge propels the shell out of the tube igniting the burst charge at the right altitude, igniting the effects.

## Dipped Stick, Sparkler

Stick or wire coated with pyrotechnic composition that produces a shower of sparks upon ignition. Total pyrotechnic composition not to exceed 100 grams per item.

## Novelties

"Trick and Novelty Devices" means any small firework device not classified as a Consumer of Display Firework. Items contain a small amount of pyrotechnic composition that is friction sensitive.

\*\* Pictures shown are for illustrative purposes only and are not an endorsement of any brand or style of consumer firework.

# FIREWORKS AND EXPLOSIVE DEVICES THAT ARE ILLEGAL IN WASHINGTON STATE

**Federally Legal Consumer Fireworks:** These items are legal to purchase, possess, and discharge only on Indigenous lands.

## Firecrackers

Generally 1/4" x 1 1/2" or less that come in packs to large bricks. A firecracker makes a single "pop" sound. Many firecrackers strung together will make repetitive "popping" sounds.

## Sky Rockets and Missiles

Similar to the Bottle Rocket, a Sky Rocket is attached to a stick or has fins and may have a plastic cap. A missile will have fins rather than a stick. Once lit, it ascends rapidly, high into the air where it explodes.

## Bottle Rockets

A firecracker type (tube) attached to a 12" long wooden stick. The stick is placed in a bottle and once lit, it rises into the air, travelling laterally before exploding.

**Illegal Explosive Devices:** The possession, manufacturing, or using of illegal Explosive Devices is a criminal offense.

## M-80's, M-100's, etc.

Illegal since the 70's, an M-80 can contain flash powder, black powder, or a composition of materials that are sensitive to shock and can injure or kill people. Can do serious permanent damage to fingers, hands, and eyes.

## Improvised Explosive Device (IED)

A pipe bomb is an improvised explosive device, consisting of a tightly sealed section of pipe that is filled with an explosive material. The pipe provides containment, meaning that a low explosive can be used to produce a relatively large explosion.

A tennis ball bomb is an improvised explosive device consisting of a tennis ball filled with combustibles or pyrotechnic material with a fuse producing a loud explosion.

## Altered Firework

Sparklers are bound together in electrical or duct tape to contain the ignition of the sparklers, providing for a loud "whoomp" sound with a flash of light.
